

## **FMC MSA Service Recognition Awards 2017**

**Dr. D. George Wyse**

**Department of Cardiac Sciences, Cardiovascular Sciences and Internal Medicine**

**38.5 Years**

### **1. What is your fondest memory of your time at Foothills?**

Working with amazing people at all levels of staff to help individual patients with medical problems, training the next generations of physicians, and the lifelong friendships I have made with colleagues in all levels of staff.

### **2. Of all your contributions at Foothills, what are you proudest of?**

Probably three things, founding of the Clinical Cardiac Arrhythmia Group; term as Chief of Cardiology; and, term as President of the medical staff.

### **3. What advice would the “you of today “give the younger version of yourself at the start of your practicing career?**

Embrace change, don't fight it, get involved in making things better, but don't waste time on things you cannot change or improve (be sure you know which is which).
